Introduction

SEBA Consulting Service is a certified public accountant firm established to provide comprehensive set of cost effective solutions to organizations like yours. Our services include auditing, accounting, Tax consultancy, business analysis, and training.

We are equipped with state of art tools and techniques along with dedicated professionals to evaluate potential opportunities and risks delivering effective auditing and accounting services.

We understand a value adding auditing and accounting service focus on scope of business improvement rather than merely preparing financial statements and reporting on figures.

Based on our true belief in the role and value of the accounting systems and our understanding of the urgent need for our customers to provide them with specialists with high expertise in this area, it has been necessary to provide financial and accounting services in all sectors that serve and support the global and regional economies; where our office offers this service focusing on the expertise of its members who are characterized with professional excellence and high confidentiality of the customer's data.

Our Vision

"We strive to achieve timely and quality accounting, auditing, and tax consultancy services at affordable price in all areas of our business. We continually improve our auditing and consulting programs and strive toward technological and industry leadership. We will support the pursuit of professional advancement and the sharing of knowledge and experience with our peers".

Our Mission

To become one of the best accounting, auditing and tax consultancy firm in the country providing utmost satisfaction to all the clientele. We would like ourselves to be known as one of the finest company to be partnered with in all the aspects of auditing and accounting services.

Objectives

To link the accounting professional to the economic development

Our Motto

"Accounting for economic development"

Core Values

Excellence:

In all areas of our business, we strive to achieve excellence and make our excellence unique.

Efficiency and Effectiveness:

We seek effective and efficient ways to better serve our clients, meet their needs, and enhance their performance and results

Consistency:

Building rock-solid, long term business relationships with our clients is the ultimate goal of every single activity we carry out. Hence, we make sure that our day-to-day operations produce consistent results so that we can achieve total customer confidence.

Sense of Urgency:

We feel a sense of urgency on matters related to our customers. We own problems, anticipate needs, respond quickly and deliver excellent solutions.

Self-Discipline:

We work within a defined system to achieve clearly stated objectives, yet there is enough space for everyone to act innovatively within this system.

Our services

Office provides the best services for our dear customers to benefit their business and get the best results. Our professional team focusing all the time on the customer satisfaction and how to use the latest methodologies and technological tools to enhance our customers business and maintain the relationship between their business and customers as well. For example, but not limited to:-
